### INDEPENDENT AUDITORS' REPORT

To the Board of Finance Town of Cornwall, Connecticut

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Town of Cornwall, Connecticut (the "Town"), as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditors' Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Town as of June 30, 2017, and the respective changes in financial position, and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### **Report on Summarized Comparative Information**

We have previously audited the Town's 2016 financial statements, and we expressed an unmodified audit opinion on those audited financial statements in our report dated September 30, 2016. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2016, is consistent, in all material respects, with the audited financial statements from which it has been derived.

### **Other Matters**

### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 3 through 9, and the required supplementary information on page 36, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town's basic financial statements. The combining and individual nonmajor fund financial statements, and other schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and other schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and other schedules are fairly stated in all material respects in relation to the basic financial statements as a whole.

### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated September 18, 2017, on our consideration of the Town's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town's internal control over financial reporting and compliance.

Danbury, Connecticut September 18, 2017

Sancha E. Welwood, LLC

### MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)

### **JUNE 30, 2017**

As management of the Town of Cornwall (the "Town"), we offer readers of the Town's financial statements this narrative overview and analysis of the financial activities of the Town for the fiscal year ended June 30, 2017.

### FINANCIAL HIGHLIGHTS

- The assets and deferred outflows of resources of the Town of Cornwall exceeded its liabilities at the close of the most recent fiscal year by \$9,333,845 (net position). Of this amount, \$4,425,742 (unrestricted net position) may be used to meet the government's ongoing obligations to citizens and creditors. Restricted Net Position is \$56,075, which is comprised of \$34,895 for the Cornwall Endowment Fund, \$16,251 for Open Space, \$283 for the Milk Fund and \$4,646 for the Food and Fuel Fund. The remainder of its net position is invested in capital assets.
- As of the close of the current fiscal year, the Town of Cornwall's governmental funds reported combined ending fund balances of \$4,102,867, an increase of \$1,242,405 in comparison with the prior year. Of this amount, \$1,736,893 is available for spending at the government's discretion and called the Unassigned fund balance. The Assigned portion is \$533,366, the Committed portion is \$1,764,322, the Restricted portion is \$21,180 and the Nonspendable portion is \$47,106. See page 33 of the audit report for details.
- At the end of the current fiscal year, the fund balance for the General Fund was \$2,221,919, of which \$200,000 has been assigned for the subsequent year's budget and \$272,815 has been assigned for other purposes leaving an unassigned fund balance for the General Fund of \$1,736,893 or 25.9% percent of total general fund expenditures for 2017.

### **OVERVIEW OF THE FINANCIAL STATEMENTS**

This discussion and analysis is intended to serve as an introduction to the Town's basic financial statements. The Town's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. The report also contains other supplementary information in addition to the basic financial statements themselves.

### **Government-Wide Financial Statements**

The government-wide financial statements are designed to provide readers with a broad overview of the Town's finances, in a manner similar to a private-sector business.

The Statement of Net Position presents information on all of the Town's assets and liabilities, with the difference between the two reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Town is improving or deteriorating.

### Town of Cornwall, Connecticut Management's Discussion and Analysis (Unaudited) (continued)

The Statement of Activities presents information showing how the government's net position is changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will result in future cash inflows (revenues) and outflows (expenditures).

Both of the government-wide financial statements present functions of the Town that are principally supported by tax revenues, grants and intergovernmental revenues (*governmental activities*). The governmental activities of the Town include general government, public safety, highways, sanitation, health and welfare, recreation, and education. The Town does not report any funds that carry-on business-type activities.

The government-wide financial statements can be found on pages 10-11 of the audit report.

### **Fund Financial Statements**

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Town can be divided into two categories: governmental funds and fiduciary funds.

<u>Governmental Funds</u> – Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund Balance Sheet and the governmental fund Statement of Revenues, Expenditures, and Changes in Fund Balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The Town maintains eight (8) individual governmental funds. Information is presented separately in the governmental fund Balance Sheet and in the governmental fund Statement of Revenues, Expenditures, and Changes in Fund Balances for the General Fund. The Town also reports the Capital Projects Fund as a major fund.

The Town adopts an annual appropriated budget for its general fund. A budgetary comparison statement has been provided for the general fund to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages 12-15 of the audit report.

<u>Fiduciary Funds</u> – Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the Town's own programs.

The basic fiduciary fund financial statements can be found on pages 16-17 of the audit report.

### **Notes to the Financial Statements**

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 18-35 of the audit report.

### **GOVERNMENT-WIDE FINANCIAL ANALYSIS**

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the Town, assets and deferred outflows of resources exceeded liabilities by \$9,333,845 at the close of the most recent fiscal year.

Net Position										
	2017	2016								
Assets Current and other assets Capital assets, net	\$ 5,006,734 	\$ 3,451,745 7,183,591								
Total assets	12,573,020	10,635,336								
Deferred outflows of resources	37,917	43,333								
<u>Liabilities</u> Long-term liabilities outstanding Other liabilities	2,752,175 524,917	1,418,385 182,416								
Total liabilities	3,277,092	1,600,801								
Net Position Net investment in capital assets Restricted Unrestricted	4,852,028 56,075 4,425,742	5,808,539 41,668 3,227,661								
Total net position	\$ 9,333,845	\$ 9,077,868								

The restricted portion of the Town's Net Position represents net position restricted for capital projects and other purposes. The balance of Unrestricted Net Position (\$4,425,742) may be used to meet the government's ongoing obligations to citizens and creditors.

At the end of the current fiscal year, the Town is able to report that all categories of net position increased by \$255,977 during this fiscal year. This increase is primarily attributable to principal pay down of bonded debt and an increase in cash offset by a decrease of taxes, interest and lien fees receivable and the excess of depreciation over additions to capital assets.

Changes in Net Position										
	2017	2016								
Revenues:										
General revenues:										
Property taxes	\$ 6,294,103	\$ 6,177,343								
Unrestricted investment income	30,968	8,656								
Grants and contributions	43,201	84,163								
Other income	33,550	76,149								
Program revenues:										
Charges for services	135,045	125,588								
Operating grants and contributions	705,140	627,744								
Capital grants and contributions	<del>_</del>	65,241								
Total revenues	7,242,007	7,164,884								
Expenses:										
Governmental activities:										
General government	895,771	878,525								
Public safety	459,980	256,293								
Highways	566,702	810,213								
Sanitation	139,492	133,478								
Health and welfare	58,357	61,940								
Recreation	82,405	82,295								
Education	4,629,581	4,546,864								
Debt service	31,591	36,092								
Other	122,151	126,901								
Total expenses	6,986,030	6,932,601								
Change in net position	255,977	232,283								
Beginning net position	9,077,868	8,845,585								
Ending net position	<u>\$ 9,333,845</u>	\$ 9,077,868								

Governmental activities increased the Town of Cornwall's net position by \$255,977.

Key elements of the activities are as follows: 86.9% of the revenues of the Town were derived from property taxes, followed by 9.7% from operating grants and contributions, 1.9% from charges for services, and 1.5% from other income.

Major revenue factors included:

- An increase in collection of delinquent taxes, interest and liens and an increase in fees for services and other revenues.
- A reduction of state grants, principally the LoCIP funds and Education Cost Sharing funds.

For Governmental Activities, 66.8% of the Town's expenses relate to education and repayment of long-term debt for school construction, 7.4% relates to public safety and health and welfare, 10.1% relates to highways and public works, and the remaining 15.7 % relates to government, community services, administration and other areas.

Major expense factors, for the most part, remain consistent as compared to the prior year. Major capital expenditures include the acquisition of a new 114SD Freightliner tanker for the Cornwall Volunteer Fire Department and the box culvert / bridge replacement on Valley Road.

### FINANCIAL ANALYSIS OF THE FUND FINANCIAL STATEMENTS

As noted earlier, the Town uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental Funds:** The focus of the Town's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Town's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the Town's governmental funds reported combined ending fund balances of \$4,102,867, an increase of \$1,242,405. 42.3% of this total amount constitutes Unassigned fund balance, which is available for spending at the government's discretion.

The General Fund is the chief operating fund of the Town. At the end of the current fiscal year, total fund balance of the General Fund totaled \$2,221,919, an increase of \$76,248 over the previous year of which \$200,000 was assigned for the subsequent year's budget and \$272,815 was assigned for other purposes.

As a measure of the General Fund's liquidity, it may be useful to compare both Unassigned Fund Balance and total Fund Balance to total fund expenditures. Unassigned Fund Balance represents 25.9% of total General Fund expenditures for 2017.

### GENERAL FUND BUDGETARY HIGHLIGHTS

The Town ended the year with a \$121,248 budget surplus. The revenues exceeded budgeted amounts by \$63,244. Overall, the Town's expenditures were \$58,004 less than budgeted amounts principally attributable to reductions in Educational expenses. Although \$200,000 of fund balance was anticipated to be used to balance the budget, none was used. Of the \$121,248 budget surplus, \$45,000 was transferred to Capital Projects per authority of the electors and citizens to facilitate the West Cornwall Wastewater Management Study. This appropriation will ultimately be repaid by a RGTOD grant that was secured by NHCOG.

### CAPITAL ASSETS AND DEBT ADMINISTRATION

### **Capital Assets**

The Town's investment in capital assets for its governmental activities as of June 30, 2017 amounts to \$7,566,286 (net of accumulated depreciation). This investment in capital assets includes land and buildings, vehicles, machinery and equipment.

Major capital asset events during the current fiscal include insulation upgrades at CCS, construction of a Swap Shop at the Transfer Station, box culvert / bridge replacement on Valley Road, installation of new guide rails on Music Mountain over Reed Brook Road, purchase of a 2017 Ford F250 4 x 4 and a 2017 CAT backhoe for the Highway Department and the purchase of a new 114SD Freightliner tanker for the Cornwall Volunteer Fire Department.

Capital Assets at Year-I	End (Net of	f Accumulate	ed Dep	oreciation)	
	20	017		2016	
Land and infrastructure Buildings and improvements Machinery and equipment	4,	,449,029 ,865,415 ,251,842	\$	1,307,981 4,999,872 875,738	
Total (net of accumulated depreciation)	<u>\$ 7,</u>	<u>,566,286</u>	<u>\$</u>	7,183,591	

Additional information on the Town's capital assets can be found in Note 4 on page 26 of the audit report.

### **Long-Term Obligations**

The Town has the following obligations:

Outstanding Obligations at Year-End											
General obligation bonds Landfill closure	2017 \$ 2,689,12 63,04	2016 8 \$ 1,348,290									
Landini closure	\$ 2,752,17	5 <u>\$ 1,418,385</u>									

On September 24, 2017, General Obligation Bonds in the amount of \$1,500,000 were issued to fund the town wide bridge program. Additional information on the Town's long-term debt can be found in Note 7 on pages 31-32 of the audit report.

### ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

- Declining enrollment at Cornwall Consolidated School.
- Capital funding for the continuation of updating and replacing DPW equipment.
- Addition of a permanent part-time assistant in the Town Clerk's office.
- Increased debt service to include the town wide bridge program.
- Increases in grants to local organizations that provide services to Cornwall citizens.
- The potential impact of the State fiscal crisis and its effects on state grants and possible assessments.

These factors were considered in preparing the Town of Cornwall's budget for the 2017-2018 fiscal year.

### **REQUESTS FOR INFORMATION**

This financial report is designed to provide a general overview of the Town's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Finance Office, Town of Cornwall, P.O. Box 97, Cornwall, CT 06753.

### RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED JUNE 30, 2017

Net change in fund balances - total governmental funds

Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays (net of disposals) exceeded depreciation in the current period:

 Capital outlay (net of disposals)
 714,084

 Depreciation expense
 (331,389)

 382,695

Revenues in the Statement of Activities that do not provide current financial resources are reported as deferred revenues in the funds. Accordingly, an adjustment is necessary to reconcile amounts reported as interest receivable in the government-wide Statement of Net Position and as unavailable revenue in the fund Balance Sheet.

Amounts reported for governmental activities in the Statement of Activities are different because:

(29,917)

Bond proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the Statement of Net Position. Repayment of debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position.

Debt issued:

Issuance of debt
Amortization of the premium on the refunding debt
payments:
Amortization of the deferred amount on refunding
To bond holders

(1,500,000)
4,162
(5,416)
155,000

(1,346,254)

Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.

Post-closure landfill costs 7,048

Change in net position \$ 255,977

## GENERAL FUND STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCE BUDGETARY BASIS - BUDGET AND ACTUAL FOR THE YEAR ENDED JUNE 30, 2017

### NOTES TO FINANCIAL STATEMENTS

### **JUNE 30, 2017**

### Note 1 – Summary of Significant Accounting Policies

### **Reporting Entity**

The Town of Cornwall, Connecticut (the "Town") is a municipal corporation organized under State Statutes. The form of government includes an elected Board of Selectmen and an elected Board of Finance. The Town provides the following services: general government services, public safety, public works, public health and welfare, culture, and recreation. Primary education services are provided by the Cornwall Consolidated School, whose operations are presented in the Town's financial statements. Secondary education services are provided by Regional School District #1, of which the towns of Cornwall, Canaan, Kent, North Canaan, Salisbury, and Sharon are members. Town appropriations to the district are determined by a separate taxpayer approved budget and the percentage of Cornwall residents attending the district's schools.

The legislative authority of the Town is vested in the Town Meeting. The First Selectman is the chief executive, chief administrative officer, and budget-making authority of the Town. The Board of Finance is responsible for revising the proposed budget and submitting the final budget to the Town Meeting. The Board of Finance is also responsible for establishing the annual tax rate. The Town has the power to incur indebtedness by issuing bonds or notes as provided by Connecticut General Statutes.

The accounting and reporting policies of the Town relating to the funds included in the accompanying financial statements conform to accounting principles generally accepted in the United States of America applicable to state and local governments. The more significant accounting policies of the Town are described below.

The Town's financial statements include the accounts of all Town controlled operations. As required by generally accepted accounting principles, the financial statements of the reporting entity include those of the Town (the primary government) and its component units. The basic criteria for inclusion of a component unit in a governmental unit's reporting entity for basic financial reporting is the exercise of oversight responsibility. Oversight responsibility is determined on the basis of financial interdependence, selection of governing authority, designation of management, ability to significantly influence operations, accountability for fiscal matters, and scope of public service. Currently, there are no entities considered component units of the Town. The Town includes all funds, agencies, boards, commissions, and authorities that are controlled by or dependent on the Town's executive and legislative branches.

The financial statements presented herein do not include agencies which have been formed under applicable State laws or separate and distinct units of government apart from the Town. Based upon the foregoing criteria, the following organization is not considered part of the Town and is excluded from the accompanying financial statements:

**Cornwall Library Association** – The Cornwall Library Association is a legally incorporated, separate and distinct entity from the Town. The Town provides a portion of the operating budget to the Library; however, the Town is not required to fund deficits nor does the Town participate in program budgets or managing operations. The Library Board of Trustees determines how its funding is spent.

### **Government-Wide Financial Statements**

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the nonfiduciary activities of the Town. For the most part, the effects of interfund activity have been removed from these statements. Governmental activities are normally supported by taxes and intergovernmental revenues and are reported separately from business-type activities, which rely on fees and charges for support. The Town has no business-type activities.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include: 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirement of a particular function or segment. Taxes and other items not identified as program revenues are reported as general revenues.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

### Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting as are the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Town considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures are generally recorded when a liability is incurred. Exceptions to this general rule include: compensated absences, debt service, and claims and judgments that are recorded only when payment is due.

Property taxes when levied, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government or specifically identified.

The Town reports the following major governmental funds:

*General Fund* – the primary operating fund of the Town. This fund is used to account for all financial transactions and resources except those required to be accounted for in another fund.

Capital Projects Fund – used to account for capital acquisition and improvements. This is a perpetual fund financed through annual budget appropriations.

Additionally, the Town reports the following fiduciary fund types:

*Private-Purpose Trust Funds* – used to account for resources legally held in trust for the benefit of individuals, private organizations, or other governments.

*Pension Trust Fund* – used to account for the accumulation of resources to be used for retirement benefits

Agency Funds – account for monies held as a custodian for outside groups and agencies.

When both restricted and unrestricted resources are available for certain expenses, the Town expends restricted resources first and uses unrestricted resources when the restricted funds are depleted.

### **Use of Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, deferred inflows/outflows, and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the fiscal year. Actual results could differ from those estimates.

### Cash and Cash Equivalents

The deposit of public funds is controlled by the Connecticut General Statutes. The Town maintains separate accounts with depositories where necessary. Cash applicable to a particular fund is readily identifiable. Cash in excess of current requirements is invested in various interest-bearing accounts, certificates of deposit, and pooled investment funds that may be deemed to be cash equivalents based on maturity date or availability of conversion to cash. Cash and cash equivalents are stated at cost, which approximates market value and have original maturities of three months or less.

### **Receivables and Payables**

All receivables are reported at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible. The Town has established an allowance for estimated uncollectible property taxes in the amount of \$71,000. The Town also established an allowance for estimated uncollectible interest on taxes in the amount of \$115,000 for a total of \$186,000 in allowances for uncollectible accounts. The Town's property taxes are levied each July 1 on the assessed value listed on the prior October 1 Grand List for all taxable property located in the Town. Taxes are due and payable in two installments on July 1 and January 1 for real property and personal property, and on July 1 for motor vehicles. Additional property taxes are assessed for motor vehicles registered subsequent to the Grand List date through September 30 and are payable in one installment due January 1. The Town files liens against property if taxes, which are due July 1, remain unpaid on the following February 1.

### **Investments**

In general, State of Connecticut Statutes allow the Town to invest in obligations of the United States of America or United States government sponsored corporations, in shares or other interest in any custodial arrangement, pool, or no-load, open-end management type investment company or investment trust, in obligations of any state or political subdivision rated within the top two rating categories of any nationally recognized rating service, or in obligations of the State of Connecticut or political subdivision rated within the top three rating categories of any nationally recognized rating service. Other trust funds may also invest in stocks, bonds, or other securities selected by the Trustee.

### Prepaid Expenses/Expenditures

Payments to vendors that reflect costs applicable to future fiscal periods are reported as prepaid in both the government-wide Statement of Net Position and the governmental fund Balance Sheet. In the governmental fund Balance Sheet, the amount reported as a prepaid expenditure is offset by nonspendable fund balance to indicate that it is not available for expenditure.

### **Advances To and From Other Funds**

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either interfund receivables or payables and are recorded for all funds affected in the period in which transactions are executed.

### **Capital Assets**

Capital assets, which include equipment, fixtures, and other long-lived assets, are reported in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

Under the rules of Governmental Accounting Standards Board ("GASB") No. 34, the Town has not retroactively recorded infrastructure assets in the government-wide financial statements.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed.

Property, plant, and equipment is depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Buildings and improvements	20-50
Vehicles	5-10
Equipment	5-10
Infrastructure	20

### **Compensated Absences**

The Town provides compensated time off to its employees and elected officials as follows:

Teachers and highway department employees earn sick pay, personal days, and vacation time as prescribed by their employment or union contracts. Vested and earned vacation pay is recognized as a liability of the Town and is accounted for using the accrual basis of accounting.

### **Deferred Outflows/Inflows of Resources**

Deferred outflows of resources represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The Town reports a deferred charge on refunding in this manner in the government-wide Statement of Net Position. A deferred charge on debt refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

Deferred inflows of resources represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The Town only has one type of item, which arises only under a modified accrual basis of accounting, which qualifies for reporting in this category. Accordingly, the item, unavailable revenue, is reported only in the governmental funds Balance Sheet. The governmental funds report unavailable revenues from property taxes. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

### **Long-Term Obligations**

In the government-wide financial statements, long-term obligations are reported as liabilities in the Statement of Net Position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the governmental funds financial statements, bond premiums and discounts, as well as bond issuance costs, are recognized during the current period. The face amount of the debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

### **Net Position and Fund Balance**

In the government-wide financial statements, Net Position is classified in the following categories:

<u>Net Investment in Capital Assets</u> – This category groups all capital assets, including infrastructure, into one component of Net Position. Accumulated depreciation and the outstanding balances of debt that are attributable to the acquisition, construction, or improvement of these assets reduce this category.

<u>Restricted Net Position</u> – This category represents external restrictions imposed by creditors, grantors, contributors, laws or regulations of other governments, and restrictions imposed by law through constitutional provisions or enabling legislation.

<u>Unrestricted Net Position</u> – This category represents the net position of the Town, which are not restricted for any project or other purpose.

In the fund financial statements, fund balances of governmental funds are classified in the following five separate categories:

<u>Nonspendable</u> – amounts that cannot be spent because they are either not in spendable form (inventories, prepaids, and long-term receivables), or they are legally or contractually required to be maintained intact (the corpus of a permanent fund).

<u>Restricted</u> – amounts to be reported when constraints placed on the use of the resources are imposed by grantors, contributors, laws or regulations of other governments, or imposed by law through enabling legislation. Enabling legislation includes a legally enforceable requirement that these resources be used only for the specific purposes as provided in the legislation.

<u>Committed</u> – amounts that can be used only for specific purposes determined by a formal action of the Town's highest level of decision-making authority, which is a motion at a Town Meeting. These funds may only be used for the purpose specified unless the Town removes or changes the purpose by taking the same action that was used to establish the commitment. This classification includes certain amounts established and approved by the Town's governing boards.

<u>Assigned</u> – amounts constrained by the Town's intent to be used for specific purposes, but are neither restricted nor committed. Intent is expressed by formal action of the Board of Selectmen or Board of Finance.

<u>Unassigned</u> – remaining fund balance after amounts are set aside for all other classifications.

The Town has not established a formal policy for its use of restricted and unrestricted (committed, assigned, unassigned) fund balance; however, the Town generally uses restricted fund balance first if the expenditure meets the restricted purpose, followed by committed, assigned, and unassigned amounts.

### **Comparative Information**

The basic financial statements include certain prior-year summarized comparative information in total but not at the level of detail required for a presentation in conformity with generally accepted accounting principles. Accordingly, such information should be read in conjunction with the government's financial statements for the year ended June 30, 2016, from which the summarized information was derived.

### Note 2 - Budgeting and Budgetary Accounting

### **Budgetary Basis**

The Town follows these procedures in establishing the budgetary data reflected in the financial statements:

- A proposed operating budget is submitted for the fiscal year.
- Public hearings are conducted in the Town to obtain taxpayer comments.
- The budget is legally enacted through passage of an ordinance. The operating budget includes proposed expenditures and the means of financing them.

- The Board of Finance is authorized to transfer budgeted amounts between departments within any fund; however, any additional appropriations exceeding \$20,000 over the total budget must be approved at a Town meeting.
- Formal budgetary integration is employed as a management control device during the year for the General Fund.
- All noncontinuing appropriations lapse at year-end. Capital appropriations do not lapse until completion of the applicable projects.

### **Budgetary/GAAP Reconciliation**

The Town prepares its annual General Fund budget on a basis (budgetary basis), which differs in some respects from generally accepted accounting principles (GAAP basis). The budget and all transactions are presented in accordance with the Town's method (budget basis) in the General Fund – Statement of Revenues, Expenditures, and Changes in Fund Balance – Budgetary Basis – Budget and Actual to provide a meaningful comparison of actual results with the budget. The major differences between budgetary and GAAP basis are that education expenditures for the Teachers' Retirement System are only recorded on GAAP basis and certain interfund transfers are recorded as expenditures (budgetary) rather than operating transfers (GAAP).

Adjustments necessary to reconcile the budgetary basis to GAAP basis are presented below:

	Fu	nd balance					Othe	r financing	Fu	nd balance
	t	eginning	R	Revenues	_Ex	penditures	sour	ces (uses)		ending
GAAP basis	\$	2,145,671	\$	7,193,223	\$	(6,469,975)	\$	(647,000)	\$	2,221,919
Reclassifications		-		-		(647,000)		647,000		_
Teachers' retirement system on behalf payments not										
recognized in budgetary basis		<u>-</u>		(416,906)	_	416,906		<u> </u>		
Budgetary basis	\$	2,145,671	\$	6,776,317	\$	(6,700,069)	\$	<u> </u>	\$	2,221,919

### Note 3 – Cash, Cash Equivalents, and Investments

### **Cash and Cash Equivalents**

Cash and cash equivalents of the Town consist of the following at June 30, 2017:

	Governmental Funds	Fiduciary Funds	Total 2017	Total 2016
Demand accounts Short Term Investment Fund	\$ 768,540 3,526,342	\$ 61,120	\$ 829,660 3,526,342	\$ 656,247 2,071,182
Total cash and cash equivalents	<u>\$ 4,294,882</u>	<u>\$ 61,120</u>	<u>\$ 4,356,002</u>	<u>\$ 2,727,429</u>

### **Custodial Credit Risk on Deposits**

Custodial credit risk is the risk that in the event of a bank failure, the Town's deposits may not be returned to it. The Town does not have a deposit policy for custodial credit risk. As of June 30, 2017, \$509,453 of the Town's bank balance of \$817,122 was exposed to custodial credit risk as follows:

Uninsured and uncollateralized	\$	417,825
Uninsured and collateral held by pledging bank's		
trust department not in the Town's name		91,628
	¢	500 452
	Ъ	509,453

### **Investments**

*Interest Rate Risk* – Interest rate risk is the risk that the Town will incur losses in fair value caused by changing interest rates. The Town does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk – Credit risk is the risk that an issuer or other counterparty will not fulfill its specific obligation even without the entity's complete failure. The Town does not have a formal credit risk policy other than restrictions to obligations allowable under the Connecticut General Statutes. As of June 30, 2017, the Town held \$1,195,197 (consisting of \$38,511 in Governmental Funds and \$1,156,686 in Fiduciary Funds) in money market and mutual funds for which ratings were not available at the end of the current fiscal year. The Short Term Investment Fund is rated AAAm by Standard & Poor's.

Custodial Credit Risk – Custodial credit risk is the risk that, in the event of a failure of the counterparty, the Town's deposits will not be able to recover the value of its investments that are in possession of an outside party. The Town's investments held in mutual funds and certificates of deposit are not subject to custodial credit risk as the Town's investment is not directly exposed to custodial credit risk.

		2016			
			Investment		
			<u>(in y</u>	rears)	
	Fair	Maturity			Fair
	Market	Not			Market
	Value	Applicable	Less Than 1	1-5	Value

	\$ 304,798	\$ 38,511	\$ -	\$ 266,287	\$ 289,755
Fiduciary Funds					
Certificates of deposit	\$ 17,062	\$ -	\$ 1,400	\$ 15,662	\$ 19,723
Mutual funds	1,156,686	1,156,686	<del>_</del>	<u> </u>	1,069,796
	\$ 1,173,748	\$ 1,156,686	\$ 1,400	\$ 15,662	\$ 1,089,519

### **Fair Value Measurements**

The Town utilizes the market approach as the valuation technique to measure fair value of its financial assets. GAAP establishes a three-level hierarchy for fair value measurements that distinguishes between market participant assumptions developed based on market data obtained from sources independent of the reporting entity ("observable inputs") and the reporting entity's own assumptions about market participant assumptions developed based on the best information available in the circumstances ("unobservable inputs") and requires that the most observable inputs be used when available. The hierarchy is broken down into three levels based on the reliability of inputs as follows:

- <u>Level 1</u> Valuation based on unadjusted quoted prices in active markets for identical assets the Town has the ability to access. Since valuations are based on quoted prices readily and regularly available in an active market, valuation of these assets does not entail significant judgment.
- <u>Level 2</u> Valuation based on quoted prices for similar assets in active markets; quoted prices for similar assets in inactive markets; or valuations based on models where the significant inputs are observable (e.g. interest rates, yield curves, etc.) or can be corroborated by observable market data.
- <u>Level 3</u> Valuations based on inputs that are unobservable and significant to the overall fair value measurement. The unobservable inputs reflect the Town's own assumptions about assumptions that market participants might use.

The Town's investments are measured on a recurring basis using Level 1 information (market quotations for investments that have quoted prices in active markets). The Town has no financial assets measured using Level 2 or Level 3 at June 30, 2017.

### Note 4 - Capital Assets

Depreciation expense was charged to functions/programs of the primary government as follows:

		2017	 2016
Governmental Activities:			
General government	\$	19,009	\$ 19,056
Highway		87,721	80,893
Public safety		60,433	60,258
Education		164,226	 169,766
	<u>\$</u>	331,389	\$ 329,973

Changes in the Town's capital assets used in governmental activities are as follows:

	Balance at July 1, 2016	Increases	Decreases	Balance at June 30, 2017
Capital assets not being depreciated:  Land	\$ 671,177	\$ -	\$ -	\$ 671,177
Total capital assets not being depreciated	671,177			671,177
Capital assets being depreciated:				
Buildings and improvements	8,065,871	53,892	-	8,119,763
Infrastructure	853,573	161,109	-	1,014,682
Machinery and equipment	3,025,733	523,010	95,191	3,453,552
Total capital assets being depreciated	11,945,177	738,011	95,191	12,587,997
Less accumulated depreciation for:				
Buildings and improvements	3,065,999	188,349	_	3,254,348
Infrastructure	216,769	20,061	_	236,830
Machinery and equipment	2,149,995	122,979	71,264	2,201,710
Total accumulated depreciation	5,432,763	331,389	71,264	5,692,888
Total depreciable capital assets, net	6,512,414	406,622	23,927	6,895,109
Capital assets, net	<u>\$ 7,183,591</u>	\$ 406,622	<u>\$ 23,927</u>	<u>\$ 7,566,286</u>

### **Note 5 – Taxes Receivable and Deferred Inflows of Resources**

Taxes receivable at June 30, 2017, for the General Fund, including the applicable allowance for collection losses, are as follows:

	Ger	<u>ieral Fund</u>
Property tax Interest and lien fees on taxes Total gross receivables	\$	355,523 225,036 580,559
Allowance for collection losses		(186,000)
Total net receivables	\$	394,559

To reflect that a portion of property taxes, interest, and lien fees receivable at June 30, 2017, are not considered available to liquidate general fund liabilities of the current period, the General Fund column of the governmental funds Balance Sheet reports property tax revenue, unavailable for expenditure in the current fiscal year of \$378,950, as a deferred inflow of resources.

### **Note 6 – Pension Plans**

### **Connecticut State Teachers' Retirement System**

### Description of System

Teachers within the Town's school system participate in a retirement system administered by the Connecticut State Teachers' Retirement Board. This Connecticut State Teachers' Retirement System (the "System") is a cost sharing, multiple employer defined benefit pension system with a special funding situation.

The System is considered a part of the State of Connecticut financial reporting entity and is included in the State's financial reports as a pension trust fund. Those reports may be obtained by writing to the State of Connecticut, Office of the State Comptroller, 55 Elm Street, Hartford, Connecticut 06106 or by calling (860) 702-3480.

The System is administered under the provisions of Chapter 167a of the Connecticut General Statutes (CGS). Participation in the System is restricted to certified staff employed in the public schools of Connecticut and members of the professional staff of the State Department of Education or the board of Governors of Higher Education and their constituent units. Participation in the System is mandatory for certified personnel of local boards of education who are employed for an average of at least one-half of a school day. Members of the professional staff of the State Department of Education or the Board of Governors of Higher Education and their constituent units may elect to participate in this system, the State Employees' Retirement System, or the Alternate Retirement System (TIAA-CREF).

### Summary of Significant Accounting Policies

For purposes of measuring the liability, deferred outflows of resources and deferred inflows of resources, and expense associated with the State's requirement to contribute to the System, information about the System's fiduciary net position and additions to/deductions from the System's fiduciary net position have been determined on the same basis as they are reported by the System. For this purpose, benefit payments (including refunds of contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

### Benefits Provided

The benefits provided to participants by the System are as follows:

Normal Benefit: A member at age 60 with 20 years of credited service in Connecticut, or 35 years of credited service including at least 25 years of service in Connecticut is eligible for vested benefits of 2% of average annual salary times years of credited service (maximum benefit is 75% of average annual salary.)

Prorated Benefit: A member who completes 10 years of Connecticut public school service is eligible for a vested benefit commencing at age 60. The benefit is 2% less 0.1% for each year less than 20 years of average annual salary times years of credited service.

Minimum Benefit: Effective January 1, 1999, Public Act 98-251 provides a minimum monthly retirement benefit of \$1,200 to teachers who retire under the Normal Benefit provisions and who have completed at least 25 years of full time Connecticut service at retirement.

### **Contribution Requirements**

The pension contributions made by the State to the System are determined on an actuarial reserve basis as described in CGS Sections 10-1831 and 10-183z.

Participants are required to contribute 7.25% of their annual salary rate to the System as required by CGS Section 10-183b (7). For the 2016/2017 school year, \$76,456 mandatory contributions were deducted from the salaries of teachers who were participants of the System during that school year. The estimated covered payroll for the Town is \$1,054,570. The Town had 15 active participants in the System at June 30, 2017.

### **Actuarial Assumptions**

The total pension liability was determined by an actuarial valuation as of June 30, 2016, using the following key actuarial assumptions:

Inflation 2.75 Percent

Salary increases, including inflation 3.25-6.50 Percent

Long-term investment rate of return, net of 8.00 Percent pension investment expense, including inflation

Mortality rates were based on the RPH-2014 White Collar table with employee and annuitant rates blended from ages 50 to 80, projected to the year 2020 using the BB improvement scale.

Future cost-of-living increases for teachers who retired prior to September 1, 1992, are made in accordance with increases in the Consumer Price Index, with a minimum of 3% and a maximum of 5% per annum. For teachers who were members of the Teachers' Retirement System before July 1, 2007, and retire on or after September 1, 1992, pension benefit adjustments are made that are consistent with those provided for Social Security benefits on January 1 of the year granted, with a maximum of 6% per annum. If the return on assets in the previous year was less than 8.5%, the maximum increase is 1.5%. For teachers who were members of the Teachers' Retirement System after July 1, 2007, pension benefit adjustments are made that are consistent with those provided for Social Security benefits on January 1 of the year granted, with a maximum of 5% per annum. If the return on assets in the previous year was less than 11.5%, the maximum increase is 3%, and if the return on the assets in the previous year was less than 8.5%, the maximum increase is 1.0%.

The long-term expected rate of return on pension investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Real Rate of Return
Large cap U.S. equities Developed non-U.S. equities	21.0% 18.0%	5.8% 6.6%
Emerging markets (non-U.S.)	9.0%	8.3%
Real estate Private equity	7.0% 11.0%	5.1% 7.6%
Alternative investments Core fixed income	8.0% 7.0%	4.1% 1.3%
High yield bonds Emerging market bond	5.0% 5.0%	3.9% 3.7%
Inflation linked bond fund	3.0%	1.0%
Cash	6.0%	0.4%

### **Discount Rate**

The discount rate used to measure the total pension liability was 8.0%. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that State contributions will be made at the actuarially determined rates in future years. Based on those assumptions, the pension's fiduciary net position was projected to be available to make all projected future benefit payments of current members. Therefore, the long-term expected rate of return on pension investments was applied to all periods of projected benefit payments to determine the total pension liability.

### Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the Town's proportionate share of the net pension liability of the System, calculated using the discount rate of 8.0%, as well as what the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (7.0%) or 1-percentage-point higher (9.0%) than the current rate.

				Current		
	1%	% Decrease	$\Gamma$	Discount Rate	1	% Increase
		(7.0%)	_	(8.0%)		(9.0%)
Sensitivity of the system's proportionate						
share of the net pension liability						
related to the Town	\$	5,215,807	\$	3,822,885	\$	3,218,120

### Pension Liabilities, Pension Expense, and Deferred Inflows/Outflows of Resources

The State makes all contributions to the System on behalf of employees of the participating districts. Therefore, participating employers are considered to be in a special funding situation as defined by Governmental Accounting Standards Board No. 68 and the State is treated as a non-employer contributing entity in the System. Since the districts do not contribute directly to the System, there is no net pension liability or deferred inflows or outflows to report in the financial statements of the Town. The portion of the net pension liability that was associated with the Town was \$3,822,885 and 100% of the collective net pension liability is allocated to the State.

The Town recognized the total pension expense associated with the Town as well as revenue in an amount equal to the non-employer contributing entities' total proportionate share of the collective pension expense associated with the Town. For the fiscal year ended June 30, 2017, the Town recognized \$416,906 as the amount expended by the State on behalf of the Town to meet the State's funding requirements.

### **Defined Contribution Plan**

The Town maintains a defined contribution money purchase plan that covers all full-time employees of the Town, excluding certified teachers. The plan is a single-employer contribution pension plan administered and amended by the trustees of the "Town of Cornwall Employee Pension Plan." Current participants total 24 employees.

### Plan Description

The plan covers employees who have completed one year of service in which 1,000 hours is worked and have attained age 21. The plan is integrated with life insurance at the option of the participant and is an approved prototype plan.

The participants become 100% vested after 7 years of service. Normal retirement age is at 65. All active eligible participants and any terminated participants who complete 500 hours during the plan year prior to their termination date will receive a contribution equal to 7% compensation. There were no voluntary participant contributions during the year. Those terminating for reasons of death, disability, or retirement will share in the allocation, regardless of hours. Employer contributions, net of forfeitures, for the fiscal year ended June 30, 2017, totaled \$35,719. The contribution is calculated on gross compensation paid for the calendar year. The plan allows for amendment by the Town as employer.

Assets of the fund are invested as directed by plan participants in mutual funds provided by the trustee. The employer pays the costs of plan administration.

### **Service Incentive Program (CVFD)**

The Town established the Cornwall VFD Service Incentive Program on behalf of volunteers of the Cornwall Volunteer Fire Department (CVFD). Under this program, the Town annually contributes \$1,000 per eligible volunteer. The total contribution for the year ended June 30, 2017 was \$13,563, net of forfeitures and was paid in the subsequent period. 31 individuals qualified for the benefit. Such volunteers become fully vested after five years of service. The normal retirement age for receiving benefits is age 62, although participants may apply for hardship distributions under certain circumstances as prescribed by the United States Department of Labor.

The plan is administered by a board consisting of three members appointed by the President of the Cornwall Volunteer Fire Department. Since the trust fund established to hold plan assets is subject to claims of the Town's general creditors, the plan is reported as an expendable trust fund.

### Significant Accounting Policies

Basis of Accounting: Financial statements are prepared using the accrual basis of accounting. Employer contributions are recognized in the period that the contributions are due.

Method Used in Value Investments: Plan investments are reported at fair value. Short-term investments are reported at cost, which approximates fair value. Securities traded on national exchanges are valued at the last reported sales price. Investments that do not have an established market are reported at estimated fair values.

### **Note 7 - Long-Term Obligations**

### **Landfill Closure**

During 1994-1995, the Town ceased all operations at its landfill site. State and federal laws and regulations require the Town to perform certain maintenance and monitoring functions at the landfill site for 30 years after the closure date of February 1996. The Town has recognized the remaining estimated postclosure care costs of \$63,047 in the Government-wide financial statements. Current year expenditures were recognized in the General Fund in the amount of \$4,162. Changes in the estimated total current cost of postclosure care may occur and are reported in the periods in which the change is probable and can be reasonably estimated. Actual cost may be higher due to inflation, changes in technology, or changes in regulations.

### **Long-Term Obligation Activity**

General Obligation Bonds of \$1,500,000 were issued on April 24, 2017, with an interest rate of 2.325%. The bonds mature serially through April 1, 2027.

General Obligation Bonds of \$1,900,000 were issued on June 1, 2012, to refund an earlier bond issue, with interest rates varying from 1.0% to 3.0%, which results in an average weighted interest rate of 2.0%. The bonds mature serially through August 15, 2023.

The following table summarizes changes in the Town's long-term indebtedness for the year ending June 30, 2017:

	Beginning			Ending	Due Within
	Balance	Additions	Reductions	Balance	One Year
Governmental activities:					
General obligation bonds (2017)	\$ -	\$ 1,500,000	\$ -	\$ 1,500,000	\$ 150,000
General obligation bonds (2012)	1,315,000	-	(155,000)	1,160,000	160,000
Unamortized premiums	33,290	-	(4,162)	29,128	4,162
Landfill post-closure costs	70,095	<u>-</u> _	(7,048)	63,047	8,225
_					
Total long-term obligations	<u>\$ 1,418,385</u>	\$ 1,500,000	<u>\$ (166,210)</u>	\$ 2,752,175	\$ 322,387

### **Debt Service Requirements**

Debt service requirements on long-term debt at June 30, 2017, are as follows:

Year Ending	<u>Principal</u>	Interest
2018	\$ 310,000	\$ 55,381
2019	310,000	50,873
2020	310,000	44,215
2021	315,000	37,352
2022	320,000	30,466
2023-2027	1,095,000	60,790
	<u>\$ 2,660,000</u>	<u>\$ 279,077</u>

### **Prior Years Advance Refunding**

In a prior year, the Town defeased a bond issue by creating a separate irrevocable trust fund. New debt has been issued and the proceeds have been used to purchase U.S. government securities that were placed in the trust fund. The investments and fixed earnings from the investments are sufficient to fully service the defeased debt until the debt is called or matures. For financial reporting purposes, the debt has been considered defeased and, therefore, removed as a liability from the Town's financial statements.

### **Statutory Debt Limitation**

Connecticut General Statutes Section 7-374(b) provides that authorized debt of the Town shall not exceed seven times base receipts, as defined in the Statute. Further, the Statute limits the amount of debt that may be authorized by the Town for general purposes, schools, sewers, urban renewal, and pension deficit. The Town did not exceed any of the statutory debt limitations at June 30, 2017.

### Note 8 – Commitments and Contingencies

The Town is contingently liable on Regional School District No. 1 serial bonds payable, which has an outstanding balance of \$3,325,000. The amount (8.85%) attributed to the Town is \$294,319.

The Town has received State grants for specific purposes that are subject to review and audit by the grantor agencies. Such audits could lead to requests for reimbursement to the grantor agency for any expenditures disallowed under terms of the grant. Based on prior experience, Town management believes such disallowances, if any, will not be material.

### **Note 9 – Interfund Balances/Transfers**

At June 30, 2017, interfund balances were as follows:

	Due From									
			(	Capital	T	own				Total
	General	Fund	<u>Proj</u>	ects Fund	Activi	ity Fund	Do	g Fund	Gov	<u>ernmental</u>
Due to:										
General Fund	\$	-	\$	11,000	\$	30	\$	4,120	\$	15,150
Capital Projects Fund		111		_		_				111
Total	\$	111	\$	11,000	\$	30	\$	4,120	\$	15,261

Interfund transfers for the year are summarized below:

	<u>Transfers in:</u> Capital <u>Projects Fund</u>	Total Governmental		
Transfers out: General Fund	<u>\$ 647,000</u>	<u>\$ 647,000</u>		
	\$ 647,000	\$ 647.000		

### Note 10 – Governmental Fund Balances

As of June 30, 2017, governmental fund balances are composed of the following:

### Note 11 – Risk Management

The Town is exposed to various risks of loss relating to liability, theft, or impairment of assets, errors or omissions, injuries to employees, and natural disasters. Commercial liability and property insurance coverage is purchased to protect against losses from these risks. Additionally, employee health coverage is purchased from a commercial carrier. The Town does not maintain a self-insurance fund. There was no significant reduction coverage from the prior year, and no claims have exceeded insurance coverage in the past three years.

The Town currently is a member of the Connecticut Interlocal Risk Management Agency (CIRMA), a public entity risk pool currently operating as a common risk management and insurance program for a comprehensive workers' compensation insurance program through its workers' compensation pool, as well as liability insurance. The Town pays an annual premium to the pool for its coverage. The agreement for the formation of CIRMA provides that the pool will be self-sustaining through member premiums and will reinsure through commercial companies for claims in excess of \$1,000,000 for each insured event to an unlimited excess limit. The pooling agreement allows CIRMA to make additional assessments to make the pool self-sustaining. The Town cannot estimate the amount of such additional assessments and has not been notified that any assessments are forthcoming. CIRMA publishes its own financial report, which can be obtained from: CIRMA, 900 Chapel Street, 9<sup>th</sup> Floor, New Haven, CT 06510.

### Note 12 - Recently Issued Accounting Standards

The Governmental Accounting Standards Board (GASB) has issued several pronouncements that have effective dates that may impact future financial presentations. Management has not currently determined what, if any, impact implementation of the following statements may have on the financial statements:

GASB Statement No. 81, Irrevocable Split-Interest Agreements. This Statement requires that a government that receives resources pursuant to an irrevocable split-interest agreement recognize assets, liabilities, and deferred inflows of resources at the inception of the agreement. Furthermore, this Statement requires that a government recognize assets representing its beneficial interests in irrevocable split-interest agreements that are administered by a third party, if the government controls the present service capacity of the beneficial interests. This Statement requires that a government recognize revenue when the resources become applicable to the reporting period. The requirements of this Statement are effective for financial statements for periods beginning after December 15, 2016, and should be applied retroactively.

GASB issued Statement No. 82, Pension Issues – an amendment of GASB Statements No. 67, No. 68 and No. 73. This statement addresses issues regarding (1) the presentation of payroll-related measures in required supplementary information, (2) the selection of assumptions and treatment of deviations from the guidance in an Actuarial Standard of Practice for financial reporting purposes, and (3) the classification of payments made by employers to satisfy employee (plan member) contribution requirements. The requirements of this statement are effective for periods beginning after June 15, 2017.

GASB Statement No. 83, Certain Asset Retirement Obligations. This Statement addresses accounting and financial reporting for certain asset retirement obligations (AROs). An ARO is a legally enforceable liability associated with the retirement of a tangible capital asset. A government that has legal obligations to perform future asset retirement activities related to its tangible capital assets should recognize a liability based on the guidance in this Statement. The requirements of this Statement are effective for reporting periods beginning after June 15, 2018.

**GASB Statement No. 84, Fiduciary Activities.** This Statement establishes criteria for identifying fiduciary activities of all state and local governments. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities.

This Statement describes four fiduciary funds that should be reported, if applicable: (1) pension (and other employee benefit) trust funds, (2) investment trust funds, (3) private-purpose trust funds, and (4) custodial funds. Custodial funds generally should report fiduciary activities that are not held in a trust or equivalent arrangement that meets specific criteria. The requirements of this Statement are effective for reporting periods beginning after December 15, 2018.

GASB Statement No. 86, Certain Debt Extinguishment Issues. This Statement improves the consistency in accounting and financial reporting for in-substance defeasance of debt by providing guidance for transactions in which cash and other monetary assets acquired with only existing resources—resources other than the proceeds of refunding debt—are placed in an irrevocable trust for the sole purpose of extinguishing debt. This Statement also improves accounting and financial reporting for prepaid insurance on debt that is extinguished and notes to financial statements for debt that is defeased in substance. The requirements of this Statement are effective for reporting periods beginning after June 15, 2017.

GASB Statement No. 87, Leases. This Statement improves the accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. The requirements of this Statement are effective for reporting periods beginning after December 15, 2019.

## REQUIRED SUPPLEMENTARY INFORMATION (UNAUDITED)

## CONNECTICUT STATE TEACHERS' RETIREMENT SYSTEM SCHEDULE OF REQUIRED SUPPLEMENTARY INFORMATION (UNAUDITED) SCHEDULE OF THE TOWN'S PROPORTIONATE SHARE OF THE NET PENSION LIABILITY

	2017	 2016	 2015
Town's proportion of the net pension liability	0.00%	0.00%	0.00%
Town's proportionate share of the net pension liability	\$ -	\$ -	\$ -
State's proportionate share of the net pension liability associated with the Town	3,822,885	3,001,850	2,774,609
Total	\$ 3,822,885	\$ 3,001,850	\$ 2,774,609
Town's covered-employee payroll	\$ 1,054,570	\$ 1,098,440	\$ 1,083,159
Town's proportionate share of the net pension liability as a percentage of its covered payroll	 0.00%	 0.00%	 0.00%
System fiduciary net position as a percentage of the total pension liability	52.26%	 59.50%	61.56%

#### Notes to Connecticut State Teachers' Retirement System

#### Method and Assumptions used in Calculations of Actuarially Determined Contributions

The actuarially determined contributions in the schedule of employer contributions are calculated as of June 30 each biennium for the fiscal years ending two and three years after the valuation date. The following actuarial methods and assumptions were used to determine the most recent contributions reported in that schedule:

Actuarial cost method Entry age

Amortization method Level percent of pay, closed

Single equivalent amortization period 20.4 years

Asset valuation method 4-year smoothed market

Inflation 2.75 percent

Salary increase 3.25-6.50 percent, including inflation

Investment rate of return 8.00 percent, net of investment related expense
