

# Town of Cornwall

## Coronavirus / Covid-19 Update, Vol. 63 January 13, 2022

Hello,

We have continued to see high levels of Covid infections in Cornwall. We have set up a Covid Test email for residents with exposure or symptoms at [Cornwalltestquestions@gmail.com](mailto:Cornwalltestquestions@gmail.com). Free masks are available at Cornwall Post Offices and the Cornwall Library. There is also a well-run testing site at Kent Transfer Station, 46 Maple Street, Kent, CT 06757, available Monday, Thursdays and Saturdays from 4-7 pm.

Residents should be ready for our first big winter storm Sunday / Monday. Also, Eversource Power company has notified the Town of the possibility of rolling power outages if the winter weather is extreme. (Please see the enclosed storm preparations bulletin)

Our congratulations go out to Mohawk Mt. Ski Area on their 75-year anniversary of operations. I hope all residents will get a chance to enjoy our Town outside soon. Please also check your neighbors when appropriate during severe weather. Storm updates will be posted on [www.CornwallCT.org](http://www.CornwallCT.org)

Sincerely,

Gordon Ridgway  
First Selectman  
Town of Cornwall, CT
