Notice

River Road will be closed from April 15th to April 27th to through traffic at the Route 128 end. The retaining wall will be rebuilt with stronger materials. This will be a major construction project. The Town has sought to minimize the closure time by having the concrete products precast. We apologize for the inconvenience this will cause residents. The Fire Department is coordinating emergency calls with the Falls Village Fire Department. We appreciate your cooperation in making this emergency repair proceed as smoothly as possible. Please contact the Selectmen's Office with any concerns or questions.
