Upcoming Harvests on State Land

Please join foresters from the CT DEEP Division of Forestry for a guided walk through 2 areas scheduled for upcoming forest product harvests in Housatonic State Forest. The harvests will salvage dead and dying oak trees impacted by spongy moth (*Lymantria dispar dispar*) and encourage forest regeneration. We will discuss the specifics of the harvests and answer questions from attendees.

When: Wednesday, September 4, 2024

Time: 8AM – 10AM

Where: Cream Hill Block, Housatonic State Forest

Meet: Intersection of Yelping Hill and Mansfield Roads, Cornwall (Site #1)

We will drive to a second site: Intersection of Cream Hill and Gold Roads (Site #2)

SEE MAP

RSVP (Required 48-hours prior): Jill Humphreys, Gerard Milne

Jill.Humphreys@ct.gov; Gerard.Milne@ct.gov

If you can't attend the walk but have questions about the planned management, please reach out via email.
