

# An Important Announcement!

Dear Patrons,

I would like to share some important news about changes to the staffing structure at our Library. After many years of dedicated service as our Library Director, Margaret Haske is transitioning her responsibilities to spend her time more directly on all traditional library functions. This change aligns with Margaret's personal goals as she reduces her hours and focuses on library circulation duties.

Under Margaret's leadership, the Cornwall Library has evolved into a dynamic cultural organization with an extensive and diverse programming calendar, successful annual fundraising events, and a loyal patron base. We thank her immensely for that.

To continue strengthening our leadership and the overall growth of the Library, we are excited to announce that we will be conducting a search for an Executive Director. This new role will provide focused oversight and strategic leadership to help the Library grow and better serve our community.

We appreciate your ongoing support and enthusiasm for the Library, and we look forward to updating you as these changes take place.

Sending with excitement for this new stage!

Best,

Becky Hurlburt

Board president, Cornwall Library
